

We have recently re-branded and re-launched our modern cake bakery business Love Rosie Cakes & Cupcakes. We bake and style cakes and cupcakes for every occasion from birthdays, anniversaries, weddings and anything else you could possibly think of! We want to add some sparkle to all your occasions with our cakes.

I run the business with my sister and we took some time out to redesign our cake flavours, cake designs, branding, website, photography and everything else in-between. Using my creative design background and creative eye we found our new take on cake! We only use seasonal and edible ingredients to decorate any of our cakes – from edible rose petals to handmade honeycomb. Our cakes are styled by hand to each individual's request or left completely up to us to design as creatively as we like! We have been told they are as delicious and indulgent as they look.

We have also started to design, bake and style dessert tables – creating the cakes, sweet treats, all accessories including bunting and cake props, creating a full display for any event or party.

We want to make sure that everyone is able to enjoy our cakes and have developed a range of gluten free cake options.
